

Bacteriologist

Dalhousie University is inviting applications for a full-time, probationary tenure-track faculty position in the Department of Microbiology and Immunology, Faculty of Medicine. The position is at the level of Assistant or Associate Professor and the appointed individual will be expected to develop a research program in bacteriology. The applicant should be able to teach undergraduate and graduate students in the areas of microbiology and molecular bacterial pathogenesis. In addition, they will supervise graduate students within the Department.

Located in the beautiful Maritime environment and vibrant Halifax, Nova Scotia, we are home to some of Canada's top scientists, clinicians and students and a center of excellence that contributes much to the world's medical knowledge base.

(<http://www.novascotia.com/about-nova-scotia/regions/halifax-metro>). Halifax is a captivating, ocean-side city with a population of over 400,000 and a moderate climate. The city has a very good public school system, five universities and colleges and a number of cultural facilities. The Department of Microbiology and Immunology enjoys a vibrant and collegial atmosphere, where collaborations between disciplines are encouraged and supported. Areas of research include infection, immunity and inflammation, cancer cell biology, and vaccinology. Information on faculty research interests can be found at <http://www.medicine.dal.ca/departments/departments/sites/microbiology.html>

Applicants must have a Ph.D. or equivalent along with productive postdoctoral experience. They should have demonstrated their potential to conduct independent research and have strong teaching skills. The successful applicant will also be expected to develop a competitive research program and to collaborate effectively with other faculty members. Applicants will also be expected to demonstrate enthusiasm for undergraduate and/or graduate teaching. Closing date for applications is August 31, 2014. To apply, please send a curriculum vitae, a two page description of proposed research, and statement of teaching interests. Applicants are asked to arrange for three letters of reference (at least two of whom must be academic referees) to be sent under separate cover to Christine Anjowski, Administrator, Department of Microbiology and Immunology, Dalhousie University, 5850 College Street, Halifax, Nova Scotia, Canada, B3H 4R2 or email: c.anjowski@dal.ca

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is an Employment Equity/Affirmative Action employer. The University encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons and women.
